Kaleido ColorLab Beta Usability Test Report

Original report is confidential and intended for internal Gaahleri use only. This report has been approved for portfolio display with key information redacted.

Report Date: April 2026

Test Version: Kaleido ColorLab Beta

Test Period: March 2026

Test Scale: 4,000+ participants, 66 detailed questionnaire responses collected

Test Objectives

Evaluate the usability, functional completeness, and color matching accuracy of Kaleido ColorLab in real-world user scenarios, identify pain points, and provide optimization directions for the official release.

Test Participants

Target User Group: Model painting enthusiasts

Recruitment Method: Invitations sent via existing customer email lists, social media, and modeling communities

Test Tasks

Users were invited to freely explore ColorLab's core features, including:

Color mixing (Color Lab)

Image color picking and mix suggestions (Image Color Picker)

My Colors / My Mixes library

Color saving and shopping cart integration

Data Collection Methods

Online survey (including quantitative ratings and open-ended questions)

Screenshots and operation descriptions provided by some users
